

When the Bosses Get Handouts & Concessions, We Lose!

The State of Michigan gave handouts to business and repeatedly cut business taxes – claiming it would create jobs.

- **Were jobs created? NO!**
- **And the population lost as the State cut services – letting roads & bridges rot; cheating schools and Medicaid for funds; severely limiting workers comp and unemployment comp.**

Officials “invested” money from public pension funds with private developers & Wall Street – claiming that pensions would be safe.

- **Not true! State and city pension funds lost billions.**

Private industry pushed 401-k’s instead of pensions – pretending we’d make more money in the stock market.

- **Many people have lost half their money – leaving no way to retire.**

For years, top UAW leaders peddled this lie that concessions save jobs.

- **The companies got concessions – and made big profits.**
- **But Ford, GM & Chrysler cut three quarters of their jobs – even while they put out almost as many vehicles.**

Concessions and handouts to business have cost millions of good-paying jobs, and reduced the standard of living of the whole working class.

- **The gap between the wealthy and everyone else is bigger than at any time since 1929, going into the last big depression.**

What we have already given up, our grandparents & parents won in struggle. We cannot agree to give any more back.

When The Bosses Come for Concessions, Refuse!
