

What Are You Going to Do When They Come for You?

Hanging the threat of an auto bankruptcy over the workers' head, Congress, the media, Bush and Obama tried to strong arm auto workers into tearing up their contract.

Top UAW leaders, repeated company lies, worked to push the first concessions through at Ford.

- \$12,000 or more – stolen from wages.
- The pledge of SUB to carry workers over the rough time – torn up.
- Break time cut, holidays cut.
- Changes in 8-hour overtime rule open the door to killer 12-hour a day schedules.
- Retirees medical care put at risk – worthless stock replaces money in the VEBA fund.
- Most active workers will pay \$25 a month more for health care.

But Ford workers weren't ready to surrender.

- At least 10 plants voted down the concessions demands, including the Dearborn Truck Plant, Dearborn Tool & Die, the Saline ACH plant.
- Overall, despite every threat, every pressure, at least 41% voted NO!

Other workers are just as fed up!

- Detroit City workers demonstrated. So have workers at Blue Cross. Macomb County workers voted once against concessions.

GM & Chrysler are next. State workers are next. Detroit City workers are next. Teachers are next. Blue Cross is next.

The big corporations are not going to stop until we stop them – they are using the crisis to lower every worker's standard of living.

Workers organized still have power. The point is to use it!

- Either we stand together so we can benefit from the wealth our labor produces, or we will go down one by one.

Oppose the drive for concessions. Pass it on! Pass it on! Pass it on!
