

The “Deficit Commission” – A Plan to Cut Social Security!

The commission says it has a plan to cut the government deficit.

They lie! Their plan is nothing but a way to attack us:

- **Cutting Social Security and Medicare benefits to current retirees.**
- **Making the next generation of retirees work longer.**
- **Cutting programs working people need – education, Medicaid, unemployment benefits, roads & bridges, public transport, parks, inspection of workplace and environmental safety.**

The Commission says its plan will cut four trillion dollars from the government deficit in ten years.

We'll look what caused that deficit:

- **Four trillion was eaten up by Bush's tax cuts to the wealthy.**
- **Almost two trillion dollars went to the Bush/Obama wars.**
- **Two trillion went to big military contractors.**
- **No one knows how many trillion went to the Bush/Obama bailout of the banks – but it's still going. The Fed just handed over another 700 billion dollars last week.**

AND look at this outrage:

- **The commission is proposing to give more gifts to the wealthy and the corporations – cutting their taxes.**
- **But it will raise taxes that hit us the hardest: higher Social Security and Medicare taxes, higher gasoline tax, higher government fees, getting rid of “earned income” and child tax credits.**
